***Bonita Bay Club Naples*** is a private, member-owned club located in beautiful Southwest Florida. Its natural surroundings provide a wholesome golf experience with 1000-plus acres that include preserved cypress wetlands with no residential development.

BBC Naples features two Tom Fazio designed golf courses, Cypress and Sabal. It was the first private 36-hole golf course in the world to achieve certification through the Audubon International's Signature Program and has been designated as a Certified Signature Sanctuary since 1998.

The Clubhouse is an 8,200 square foot facility nestled in among the slash pines and sabal palms and features a golf shop with trending golf wear, a formal dining room, mixed grill room, bar and locker facilities.
